Minh Ha Pham

New York City | +1 (813) 327-9777 | phamminhha.work@gmail.com | minh-ha.com | linkedin.com/in/minh-ha-pham3006/

Education

University of South Florida — **Tampa, FL**

- Bachelor of Science in Business Analytics and Econometrics | GPA: 3.91 — Aug 2023 — Aug 2026

Work Experience

Business Intelligence Analyst Intern | *Esencia Property Maintenance* — Tampa, FL, May 2026 — Aug 2026

- Designed interactive Power BI dashboards tracking 40+ key metrics, helping executives manage a **$1.7M annual budget** and evaluate 85 vendor contracts.
- Built a centralized MySQL database combining 3 separate data sources into 15 organized tables, enabling instant cross-department reporting across **29K+ service records**.
- Automated manual spreadsheet workflows via Python ETL, cutting report refresh time from +15 hours to <1 hour.
- Authored **data dictionaries and technical documentation**, establishing governance standards and data schemas for long-term system maintenance.

Data Quality Analyst Intern | *Navy Federal Credit Union* — Pensacola, FL, May 2025 — Aug 2025

- Built a Python z-score outlier detection script across 300+ CECL credit fields, catching **50-80 data anomalies** biweekly.
- Processed **5,000+ customer call logs** using Python and NLTK, cutting manual text review time by **90%**.
- Designed Tableau dashboards using call feedback data, surfacing 10+ key complaint themes across the lending lifecycle.
- Consolidated 30-40 monthly AFP Excel reports into a SQL database using Python, eliminating manual data aggregation.
- Built real-time SQL monitoring queries across 12+ lending portfolios to evaluate overall balance-sheet health.

Data Analyst Intern | *Kyanon Digital* — Ho Chi Minh City, Vietnam, May 2024 — Aug 2024

- Integrated Google Analytics and Meta Business Suite, building unified tracking system for CRM campaign performance.
- Segmented customer behavior using Python DBSCAN clustering, driving targeted ad campaigns **boosting CTR by 35%**.
- Built XGBoost predictive models to evaluate campaign performance, reallocating a budget of **$20K in marketing spend**.
- Applied predictive lead scoring to prioritize high-converting prospects, converting **160+ additional qualified leads** and reducing funnel drop-off.

Projects

Loan Default Risk & Fair-Lending Analytics | *Python, XGBoost, scikit-learn, Fairlearn, Pandas* — Aug 2025

- Built a XGBoost credit risk model with monotonic constraints on 10 core financial features, achieving 0.893 ROC-AUC.
- Fixed probability errors using isotonic regression, correcting error by **30%** and **$38M capital reserve overestimation**.
- Created RAROC pricing model to align interest rates with risk, identifying that **53% of portfolio loans were underpriced**.
- Audited demographic compliance using Fairlearn, resolving a false bias flag and shipping a grade-blind underwriting model.

Kickstarter Crowdfunding & Launch Evaluation | *Python, Pandas, NumPy, statsmodels, Matplotlib* — Oct 2024

- Analyzed 200K+ crowdfunding campaigns in **Python and Pandas** to build an organic customer acquisition strategy for a hardware startup's v2 product relaunch, raising **$11K in 26 days** (**112.3% funded**) through 6-point launch strategy.
- Resolved a **survivorship-bias flaw** across 32 categories, avoiding false success rates that skewed pricing benchmarks.
- Built a **fixed-effects regression model in statsmodels** across 8 subcategories to isolate optimal pricing.

Skills

Languages & Databases: Python, R, SQL (MySQL, PostgreSQL, Microsoft SQL Server, Oracle), Hadoop, Spark

BI & Visualizations: Tableau, Power BI, Looker, Plotly, Advanced Excel (VBA)

ML & Analytics: XGBoost, scikit-learn, NLTK, DBSCAN, A/B Testing, Predictive Modeling
